Open Letter: Request for Enhanced Impartiality and Community-Centric Leadership

Dear Mr. Mayor,

I trust this letter finds you well. I wish to express my gratitude for the recently allotted 10 minute presentation 2024-02-08, where I appreciated the non-interruptive decorum and the possibility of short, timely extension during chamber presentation. However, certain concerns have arisen regarding the intent behind your finger swirling during my presentation prompting questions from some attendees.

In my interpretation, I have suggested the gesture to signify a need to conclude presentations, especially when proposing a solution that could potentially save our community \$30,000,000.00 and prevent a tax increase. Immaterial my indifference to such puerility, it is crucial to address community concerns about the clarity of communication during such gestures.

While acknowledging your distinct cult of personality and self-worship, I would like to respectfully encourage you, as the chair, to integrate these qualities with a more pronounced emphasis on impartiality. Prioritizing community concerns over personal charm and engaging in collaborative efforts to find effective solutions is essential for the overall well-being of our municipality and emphasizes the importance of impartial leadership.

Contrary to public perceptions of gesture and actions I do express concern of By-Law 24-01 being passed as done without adjourn for deferral in order to firstly pursue the new potential best interest of community trust, by reaching out to Chief Kevin Redsky (Shoal Lake Reserve), Premier Wab Kinew and Winnipeg Mayor Scott Gillingham as authorities untoward the Tri-partite agreement memorandum 1989 as shared with council. Some have expressed concerns about this approach, considering it a matter of shame.

In pursuit of a common goal, preventing perceptions of incompetence and ensuring that council actions align with the best interests of the community are paramount; I trust you will consider these concerns and suggestions. I hope for an open and collaborative spirit to lead our municipality with political integrity and a genuine commitment to its overall well-being at large.

Thank you for your time and consideration.

In God We Trust
Edwin Giesbrecht
